

SCFA – Training Bulletin 23-01

WINTER OPERATIONS

Snowfall & Extreme Temperatures may add extra hazards to our operations/ Icy Surfaces / Slip & Falls

Ice & road surfaces may vary from your home / work – fire house – incident – hospital – returning back

Drivers may not adjust their speed & stopping distances to current road conditions

Clear your vehicles windows before responding

Fire Hydrants may be blocked, or obscured, we may need to have snow shovels on apparatus

In heavy snowfall building access may be restricted on sides and rear

Delayed response times / including mutual aid / RIT Team / Responders may need warm shelter / rehab
